

Brixham Town Council Internal Financial Procedures

Introduction

1. The Financial Regulations govern the conduct of financial management by the Council and may only be amended or varied by resolution of the Council. The Council is responsible in law for ensuring that its financial management is adequate and effective, and that the Council has a sound system of financial control which facilitates the effective exercise of the Council's functions, including arrangements for the management of risk and for the prevention and detection of fraud and corruption.
2. This financial procedure is designed to demonstrate the systems by which the Council checks on its methods of managing its financial transactions and meets these responsibilities.
3. Brixham Town Council payments are made in line with The Legislative Reform (Payments by Parish Councils, Community Councils and Charter Trustees) Order 2013 which removed the requirement for every cheque or other order for the payment of money by a Town Council to be signed by two members of the Council and facilitated the use of electronic means of payment.
4. Brixham Town Council has resolved to make as many payments as possible by 'faster payment', online, thereby reducing its reliance on the cheque payment method. It has considered receiving payments by card, but concluded the cost outweighed any benefit. The option of making faster payment is made to all debtors.
